Michigan State Sigma Nu House Acquired

Lexington, Va. – Fifth Point Properties, LLC, working with the Epsilon Rho Alumni Chapter, has reached an agreement to acquire the Sigma Nu chapter house in East Lansing, Michigan. “With the acquisition of the Michigan State facility, Fifth Point Properties is continuing an investment focus grounded in the acquisition of quality real estate,” commented Fifth Point Properties’ president and chief operating officer, David J. Glassman. “This is exactly the kind of mutually beneficial deal that will be the hallmark of Fifth Point Properties.”

According to Tim Huffmyer, alumni chapter president, the move was largely based on human resources. “The reality of our situation was that, even in good times, there was more work to be done than people to do it. The result was a lack of alumni attention to issues like alumni relations and chapter support. Fifth Point brings tremendous resources to bear, which in turn, allows the alumni chapter to refocus its resources.”

From a collegiate chapter standpoint, the change is also a welcome one. “At Epsilon Rho, we like to think of ourselves as Rock Chapter contenders, and, as a result, want a “Rock Chapter” quality house,” said collegiate chapter president Joe George. “The introduction of Fifth Point will help our housing operation reach a new level.”

Fifth Point Properties is wholly-owned subsidiary of Sigma Nu Fraternity, Inc. Headquartered in Lexington, Virginia, Fifth Point Properties has interest in real estate located on or near more than 30 college campuses throughout the United States.
